

The Day Foundation
Overview by Simon Pott, Chairman

The Day Foundation has had a year of celebration, contemplation, consolidation, education, repair, maintenance and distribution of accumulated funds which has been provided by some generous donations. This has supported people in the village requiring assistance as the trustees became aware of help required working through and with the General Manager, who continues to assist, fetch, carry and attend to a multitude of requests with a sunny disposition. The residents receive attention and live quietly in well maintained properties and gardens, with a number of applications from those who wish to join this close-knit community; the trustees hope they are fulfilling the task passed to them by the Day Family, perhaps even exceeding expectation. We will continue to work closely with other local organisations to benefit not only the residents of Coddenham but also across the wider community.
