

## **CODDENHAM PARISH COUNCIL**

### **RECORDS MANAGEMENT AND DOCUMENT RETENTION POLICY**

Coddenham Parish Council recognises the efficient and effective management of its records is essential to comply with its legal and regulatory obligations and to assist in the satisfactory management of public business by the Parish Council. This Policy provides a framework through which this effective management and retention of public records can be achieved and properly audited.

#### **Scope**

This Policy applies to all records created, received or maintained by the Parish Council. Records are defined as all those documents which relate to the business carried out by the Parish Council and which are thereafter retained (for a set period) to provide evidence of its communications, transactions and activities. These records may be created, received or maintained in hard copy or electronically.

#### **Responsibilities**

The Parish Council has a corporate responsibility to maintain its records and record management systems in accordance with regulatory requirements. The person with overall responsibility for maintaining this Policy is the Clerk and Proper Officer of the Parish Council.

The person responsible for records management will give guidance for good records management practice and will promote compliance with this Policy so that information will be stored and retrieved easily, appropriately and timely.

The Clerk and Proper Officer must ensure that the records for which they are responsible are accurate and are maintained and disposed of in accordance with the Parish Council's records management guidelines.

Individual Councillors may hold records in hard copy format or electronically at home or on their home computers. If the Councillor considers that some of these documents are important in the context of the parish records, they should ensure that the Clerk retain a copy for the official record. Individual Councillors are strongly advised to undertake 'weeding' and 'housekeeping' on a regular basis. On resigning from the Council Councillors should delete electronic records they hold and destroy hard copy documents. Councillors should be aware that records that they may hold may be subject to the provisions of the Data Protection Act 1998, Freedom of Information Act 2000 and Environmental Information Regulations 2004. The Parish Council must also ensure its acts within the General Data Protection Regulations.

#### **Retention Schedule**

The Parish Council is required to maintain a retention schedule listing types of records which it creates or holds in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

The Clerk will be expected to manage the current record keeping systems using the retention schedule and to take account of the different retention periods when they are creating new record keeping systems.

The retention schedule refers to all Parish Council records irrespective of the media in which they are stored.
